

Sorting Guide for Residual Waste

What is residual waste?

Residual waste is combustible waste smaller than 50 x 50 x 100 cm. It may contain small amounts of textiles, paper, plastic, or wood that are unsuitable for recycling.

Collected residual waste is transported for incineration at an environmentally approved facility.

If you wish to order a collection, get a quote, or need more information, feel free to contact HCS customer service by email at info@hcs.dk or via the following phone numbers. We look forward to hearing from you:

- Zealand - Phone +45 43 42 41 00
- Funen - Phone +45 66 16 90 55
- Southern and Central Jutland - Phone +45 86 40 70 88
- Northern Jutland - Phone +45 98 82 08 11

YES, PLEASE

- Small combustible items under one meter
- Food packaging

NO, THANK YOU

- Household waste-like items such as food scraps
- Non-incinerable waste such as fishing nets, fiberglass, and PVC plastic
- Recyclable waste such as glass and metal
- Hazardous waste
